

Walnut Canyon National Monument Vegetation Map Class for Pinyon Pine - Utah Juniper / Blue Grama Woodland

The map class "[Pinyon Pine - Utah Juniper / Blue Grama Woodland](#)" is composed of the following vegetation associations, each described separately:

- [Pinus edulis - \(Juniperus osteosperma\) / Bouteloua gracilis Woodland](#)
- [Juniperus osteosperma Woodland Alliance](#)

This type occupies large areas throughout the mapping area. It occurs east of the Monument access road, north of the canyon, and south of the canyon on a basalt covered slope of Anderson Mesa.
